

CHILDREN'S HOSPITAL & MEDICAL CENTER FAMILY AMBASSADORS

INSPIRATIONAL STORIES

There is nothing more powerful than a miracle story. It is a way to heal and a way to make a positive difference in the lives of other children and their families who may be experiencing health care challenges. Children's Hospital & Medical Center's ambassador program provides a platform to help families share their incredible stories.

ENCOURAGING SUPPORT

As an advocate for children, many of the services Children's provides are not reimbursed. No child in need of medical care is ever turned away for an inability to pay. That's why Children's depends on the generosity of donors for help to fund unreimbursed care, cutting edge equipment, research and a wide range of medical programs.

BECOME A CHILDREN'S HOSPITAL & MEDICAL CENTER AMBASSADOR FAMILY

Children's Hospital & Medical Center family ambassadors help to educate the public about the important, life-saving work at Children's. By sharing their stories and representing Children's at community events, they help to raise awareness and funds in support of the hospital.

GETTING INVOLVED

Children's Hospital & Medical Center offers many opportunities for involvement. Depending on your geographic location, Children's staff members will contact you as relevant events become available.

Want to Learn More?

We're happy to explain what it means to be a Children's ambassador, answer your questions and talk about opportunities that might be a good fit for your family.
